551-405-1324 | tj346@cornell.edu | linkedin.com/in/tao-tony-jin-ab771426a | github.com/TonyKing0504

SUMMARY

Bilingual data analyst (Mandarin native, English fluent) with experience analyzing large datasets using **SQL**, **Excel**, and **Python**, building **KPI dashboards** and operational reporting in Excel and **Metabase**, conducting pre-IPO **due diligence** at a securities firm, and completing institutional **DDQs** at an asset manager. Strong written and verbal communication, problem-solving, and attention to detail; able to prioritize multiple tasks and meet deadlines in a fast-paced environment.

EDUCATION

Cornell University

Master of Engineering in Systems Engineering

Ithaca, NY

Sep 2025 – May 2026

- Relevant Coursework: Data Analytics, Statistical Modeling, Machine Learning, Optimization

University of British Columbia

Bachelor of Science: Major in Mathematics

Vancouver, BC

Sep 2021 – Jun 2025

- Relevant Coursework: Relational Databases, Statistical Inference, Time Series Analysis, Statistical Learning

EXPERIENCE

Data Science Intern

Jan 2025 – May 2025

Aifuku

Toronto, ON

- Kept **Metabase** operational reporting accurate by writing complex **PostgreSQL** validation queries across a 9-table production database, collaborating with the operations team to identify data anomalies and resolve **data quality** issues
- Automated ledger reconciliation by building a Mage **ETL** workflow that parsed bank and credit-card statement PDFs into structured JSON with an LLM (Gemini), reducing manual data entry and processing errors
- Improved data reliability for reporting by performing **root cause analysis** across 5 linked operational entities, documenting schema and data quality issues, and communicating fixes cross-functionally

Institutional Sales Department Intern

May 2024 – Aug 2024

Grow Investment Group (asset manager)

Shanghai, China

- Completed 10+ institutional **due diligence questionnaires (DDQs)** of 30–50 questions each by writing clear, concise responses and cross-checking internal records, ensuring accurate, consistent client-facing documentation
- Conducted quantitative market research integrating macroeconomic indicators, interest rate trends, and sentiment data; collaborated with senior analysts to deliver analytical reports supporting institutional investment decisions

Investment Banking Intern

Jun 2023 – Aug 2023

Sinolink Securities Co., Ltd.

Shanghai, China

- Performed pre-IPO **financial due diligence** on a Shanghai main-board applicant (planned ~RMB 460M IPO): reviewed 10+ executives' 3-year **bank transaction records** (20,000+ entries) against company ledgers, flagging dozens of large unexplained transactions
- Calculated **risk and performance metrics** (Sharpe, Sortino, beta, volatility, correlation) and visualized trends against benchmarks in risk management reports for stakeholders

PROJECTS

Olist Marketplace Customer Retention & Fulfillment Analytics | *SQL, Python, Excel*

Jan 2026 – May 2026

- Built a **DuckDB SQL** analytics pipeline on 99K+ e-commerce orders using multi-table **joins** and **window functions**, creating reusable data marts for retention cohorts, **customer segmentation**, and seller/category performance
- Identified a 3.0% repeat-purchase rate and a BRL 7.98M high-value one-time buyer opportunity; translated findings into CRM, retention, and category-management recommendations with project teammates
- Quantified an 8.1% late-delivery rate across 96K+ delivered orders and its impact on review scores; produced reproducible CSV outputs and an **Excel KPI dashboard** for service recovery priorities

Diabetes 30-Day Readmission Risk Modeling | *Python, pandas, scikit-learn, XGBoost*

Sep 2025 – Dec 2025

- Engineered a 160-feature dataset from 101,766 hospital records; benchmarked Logistic Regression, Random Forest, and XGBoost models with leakage-safe patient-level splits (best AUROC 0.668)
- Applied isotonic recalibration to reduce expected calibration error from 0.342 to 0.004; presented SHAP-based feature insights and subgroup fairness findings as decision-ready recommendations

SKILLS

Programming & Data: SQL (PostgreSQL, DuckDB; joins, aggregations, window functions), Python (pandas, NumPy), R

Data Visualization & Reporting: Excel (PivotTables, VLOOKUP, dashboards), Tableau, Power BI, Metabase, KPI reporting

Analytics: Data cleaning and validation, cohort analysis, customer segmentation, statistical modeling, trend analysis

Languages: Mandarin Chinese (Native), English (Fluent), Japanese (Basic)
